PROFESSIONAL COLLECTION

Ricercata ed innovativa, la collezione di vetrine climatizzate Professional rappresenta quanto di più rivoluzionario sia mai stato ideato nel seducente mondo degli appassionati di vino. Sono oggetti dal concept e design inconfondibile, trasformati negli anni in veri e propri simboli e destinati a diventare preziose icone senza tempo.

La collezione Professional è stata disegnata da Massimo Della Marta, designer e grande appassionato di vino.

Per la prima volta, le cantine climatizzate, oltre che funzionali strumenti di conservazione e servizio del vino, sono raffinati complementi di arredo che consentono una elegante ed ordinata esposizione dei vini.

Brevetti mondiali come, la Teca, il Quadro Vino e l'impianto di refrigerazione centrale, hanno confermato il valore del know-how del brand nell'ambito del wine design e della tecnologia termodinamica applicata alla conservazione del vino.

L'eccellente qualità che l'azienda propone da sempre è ottenuta applicando un sistema di produzione che prevede congiuntamente processi produttivi industriali e lavorazioni artigianali. Ogni prodotto viene costruito da tecnici specializzati utilizzando materie prime e semilavorati di altissima qualità e ponendo particolare cura per ogni dettaglio.

La collezione Professional è realizzata interamente in Italia, negli stabilimenti Della Marta alle porte di Torino. Scelti dai più grandi Sommelier e Chef a livello internazionale, arredano con eleganza i migliori ristoranti ed hotel in tutto il mondo.

Sophisticated and ground-breaking, Professional climate wine cabinet collection is a revolution in the enticing world of wine enthusiasts. Unique by concept and design, through the years they have become a symbol destined to become timeless, precious icons.

The professional collection is designed by Massimo Della Marta, designer and wine enthusiast.

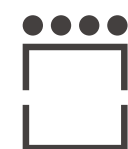

For the first time, climate wine cellars, from functional home appliances, become sophisticated pieces of furniture to display wine cleanly and gracefully.

World patents such as Quadro Vino, Teca, and the central refrigeration system, have confirmed the value of the brand's know-how in wine design and thermodynamics applied to wine conservation.

The company's everlasting commitment to excellence in quality is achieved through a production system that combines industrial production processes and craftsmanship. Each product is made by specialised technicians, employing prime materials and semi-finished products of the highest quality, with painstaking attention to detail.

The Professional collection is entirely made in Italy, at the Della Marta premises just outside Turin.

Chosen by the greatest international Sommeliers and Chefs, they elegantly trim the fanciest hotels and restaurants of the world.

TECA

Q

TECA

La Teca si presenta sobria ma elegante, volutamente minimalista ed essenziale. Le bottiglie sono parte della scenografia dove la particolare esposizione in orizzontale ne esalta valore e bellezza. È un oggetto dal design inconfondibile destinato a rendere speciale ogni ambiente in cui è inserito.

Teca is sober but elegant, deliberately minimal and essential. The bottles are part of a scene where the trademark horizontal display enhances value and beauty. It is an object with a unique design intended to give a unique feel to any location.

MOD

Sistema componibile. Una ricca collezione di finiture e colori consente di realizzare ambientazioni originali ed esclusive. Mod è tecnologia, tecnica ed applicazione al servizio del design e dell'architettura in una vision di libera espressione estetica.

Mod è un sistema versatile, che trova spazio in progetti di abitazioni private e locali commerciali. Esposizione, conservazione e servizio del vino, ma non solo. L'inserimento di moduli gastronomia e salumeria consente di realizzare una pratica, elegante e ben distinta area dedicata esclusivamente all'esposizione enogastronomica.

Modular system. A rich collection of finishes and colors to create unique and exclusive ambiances. Mod is technology, craft, and application at the service of design in a vision of free aesthetic expression.

Mod is a versatile system that finds its place in private residential and commercial projects.

Wine display, storage and service, but not exclusively. The addition of ready dish and cold cuts modules enables the creation of a practical, elegant and distinct area dedicated exclusively to food and wine display.

MOD

Con l'utilizzo del modulo "D" è possibile realizzare sia una soluzione tipo banco, utilizzando il rivestimento FIT, sia la soluzione a pensile, utilizzando le cornici. Per realizzare una elegante esposizione enogastronomica, in aggiunta ai moduli per il vino, si possono inserire moduli neutri, salumeria e gastronomia.

With type "D" modules it is possible to create either a counter-like solution using our FIT cladding, or a suspended composition using our frames. To realize an elegant enogastronomic display in addition to bottle units it is possible to add also neutral units, delicatessen and gastronomy ones.

EMME 12

La Emme12 rappresenta la sintesi della vision del brand. Oggetto fortemente identitario, segue il concept estetico della collezione Quadro Vino, facendo propria una tecnologia del freddo professionale. È la vetrina per vino meno profonda al mondo. Le temperature differenziate consentono di conservare contemporaneamente sia vini bianchi che vini rossi.

Emme 12 represents a synthesis of the brand's vision. As a highly identitary object, it follows Quadro Vino's aesthetic concept, taking up technology from professional refrigeration. It is the world's slimmest wine cabinet. Differentiated temperatures allow for conservation of white and red wines at the same time.
